

I am objecting to the Sinclair stations using our public airwaves free of charge and running a clearly partisan political advertisement, "Stolen Honor" under the guise of news or a documentary. This is a clear violation of campaign finance laws as well as fairness in media. This is harmful to our democracy and the FCC should stop it. Furthermore the FCC should prohibit the concentration of media ownership that allows a network like Sinclair to violate the public interest at our expense on our airwaves. I look forward to your immediate attention to this basic attack on our democracy.
